THE MIRACLE DAHLIA GARDEN

of Curtis Redfern

HOTEL VIRGINIA, SANTA BARBARA, CALIFORNIA

In 1952 I grew many field grown clumps of the best European and American dahlias, including some of my own introduction. My garden is quite small and I had only a limited number of clumps. The following price list covers varieties that produced roots from one or more clumps. Each variety I offer produced wonderful flowers in my garden and I recommend each variety. My display garden this year will be at the corner of Jesmary Lane and Bath Streets and will probably rate as one of the finest small dahlia gardens in the world this year. Visitors are always welcome. Please share this price list with a friend.
